

Summary and Analysis of RHMT Reports 2009/2010

**R.D. Mutagwaba,
Regional Health Services Coordinator, MOHSW**

Presentation Layout

- Introduction
- RHMT Progress Report July 2009-June 2010
- CMSS and its impact on RHMT Capacity Development
- Recommendations

Introduction

Assessment of RHMT reports was made in order;

- To see to what extent the RHMTs have improved their capacity to coordinate health activities and get reflection on increase of RHMT performance
- To identify areas in which RHMTs will need backstopping in the process of implementation

Introduction cont.....

- Implementation progress report focuses on ten major RHMT roles and functions.
- All 21 RHMT mainland reports were assessed.

Progress Report July 2009-June 2010

RHMT CORE Members

- Regional Medical Officer
- Regional Health Secretary
- Regional Health Officer
- Regional Dental Officer
- Regional Nursing Officer
- Regional Pharmacist
- Regional Laboratory Technician
- Regional Social Welfare Officer

CURRENT STATUS

Until August 2010 the Inventory of RHMT staff indicates that;

- Confirmed staff were 158= 94%
- Acting were 7= 4%
- Deficit 3= 2%
- Total 168= 100%

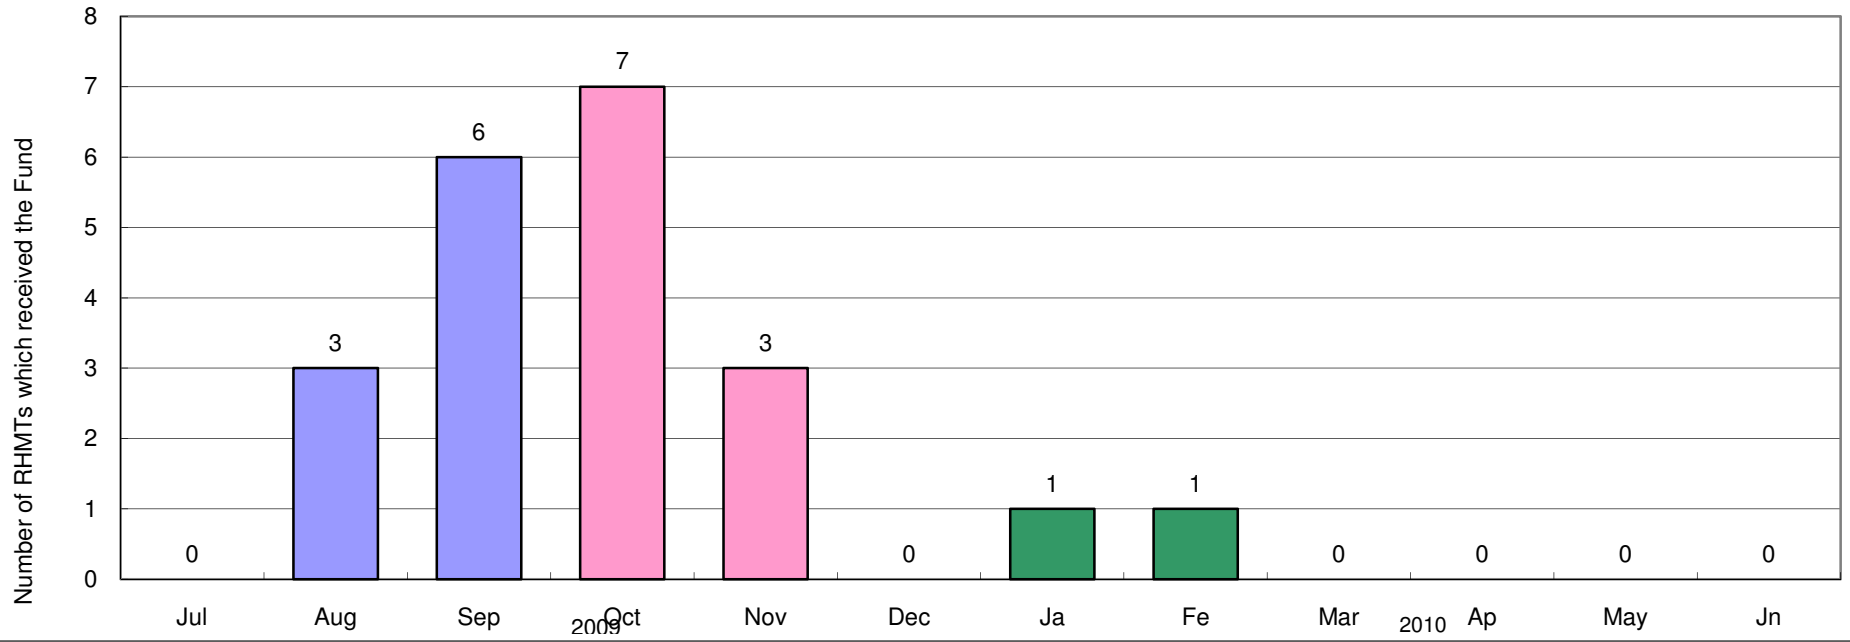

RHMT Functions

- Develop and operationalise RHMT Plan from the 5 year Strategic Plan and strategies.
- Disseminate and support the translation of the policies, strategies and guidelines of the MOHSW/PMO-RALG to CHMTs.
- Support an appropriate environment for private sector development.
- Coordinate services in the region.
- Support Human Resource for Health management.

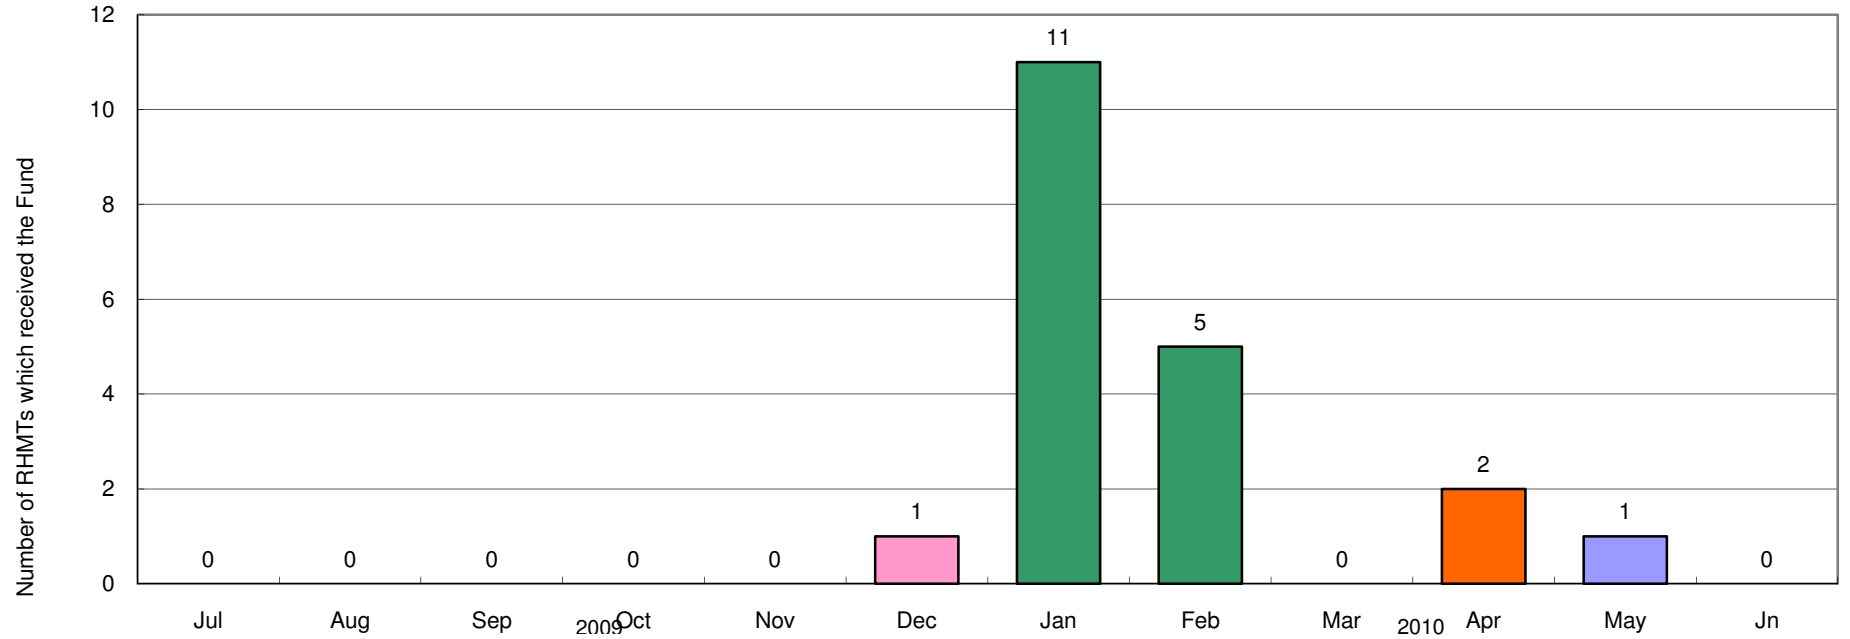

RHMT FUNCTIONS

- Ensure the quality of health services at all health and Social welfare facilities.
- Facilitate emergency and disaster preparedness and response.
- Support and backstop Regional Referral Hospital.
- Instituting network system.
- Conduct innovative supervision.

Trend of Receiving the Basket Fund by RHMTs, 2009/2010
1st Installment

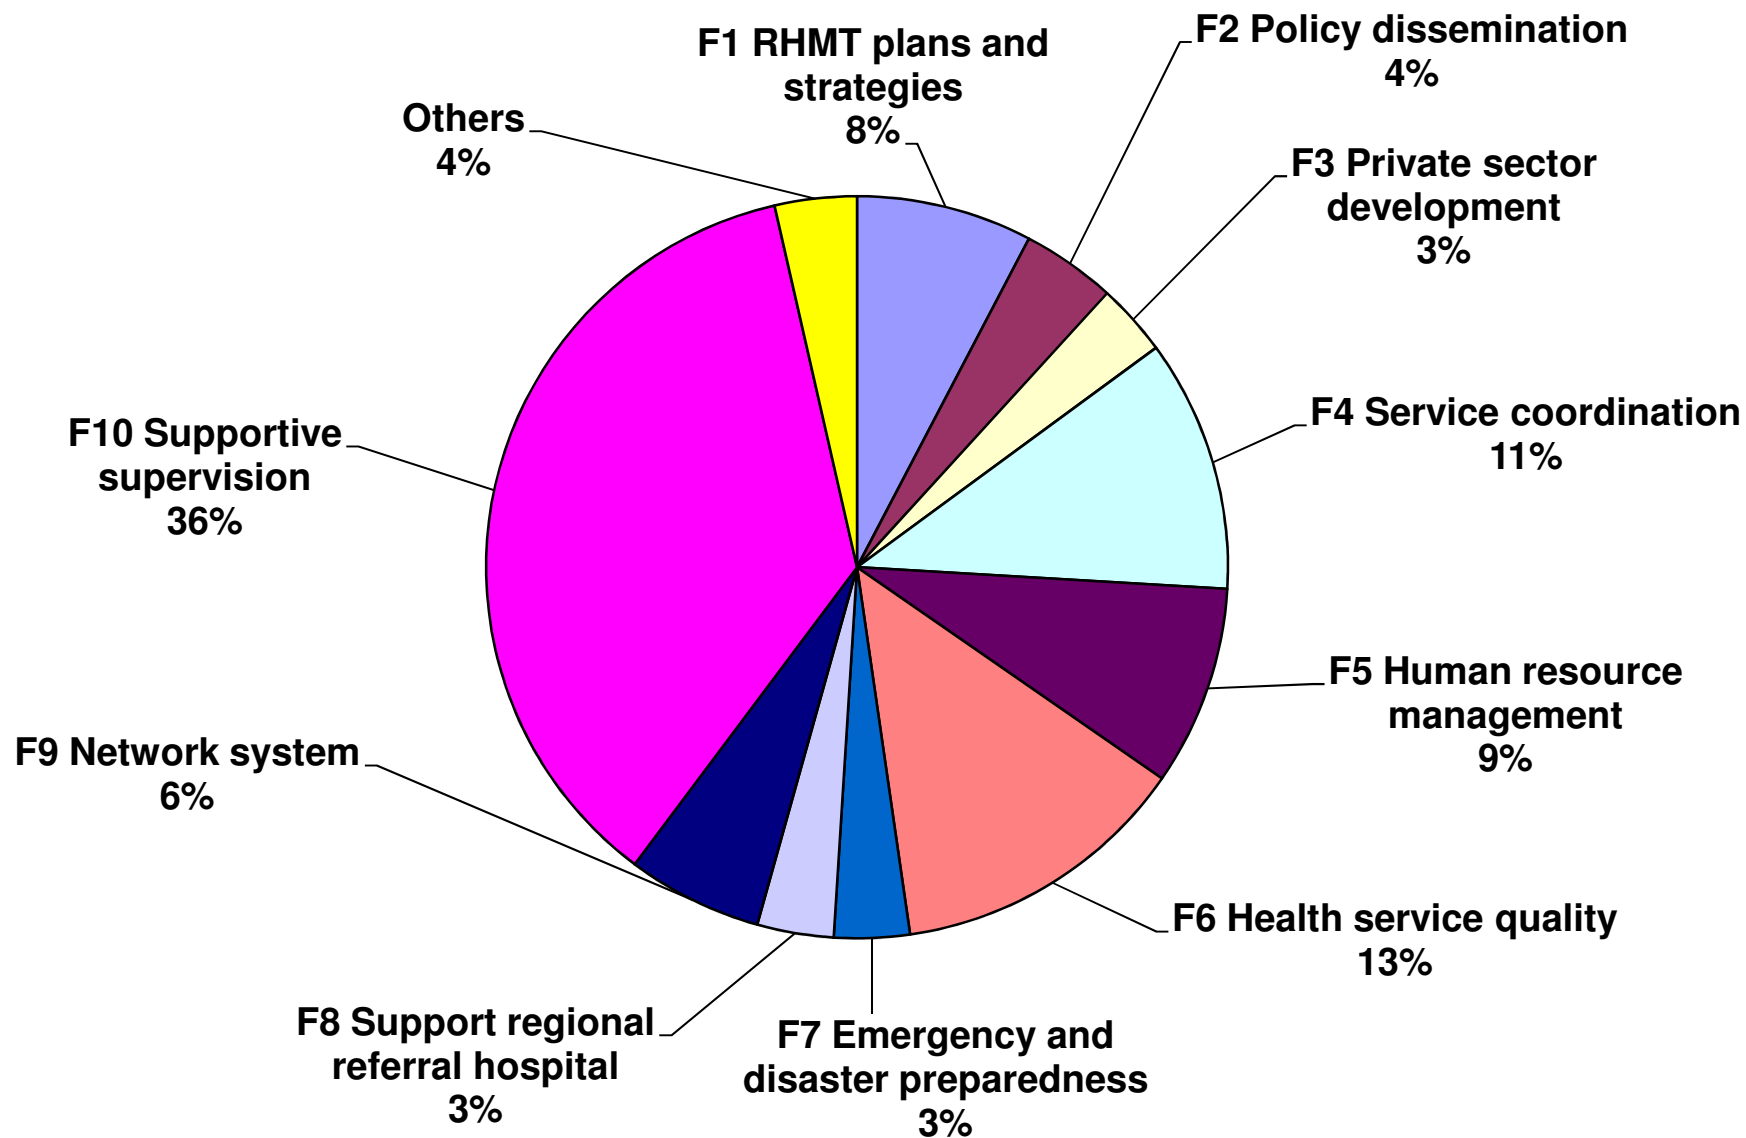

Trend of Receiving the Basket Fund by RHMTs, 2009/2010
2nd Installment

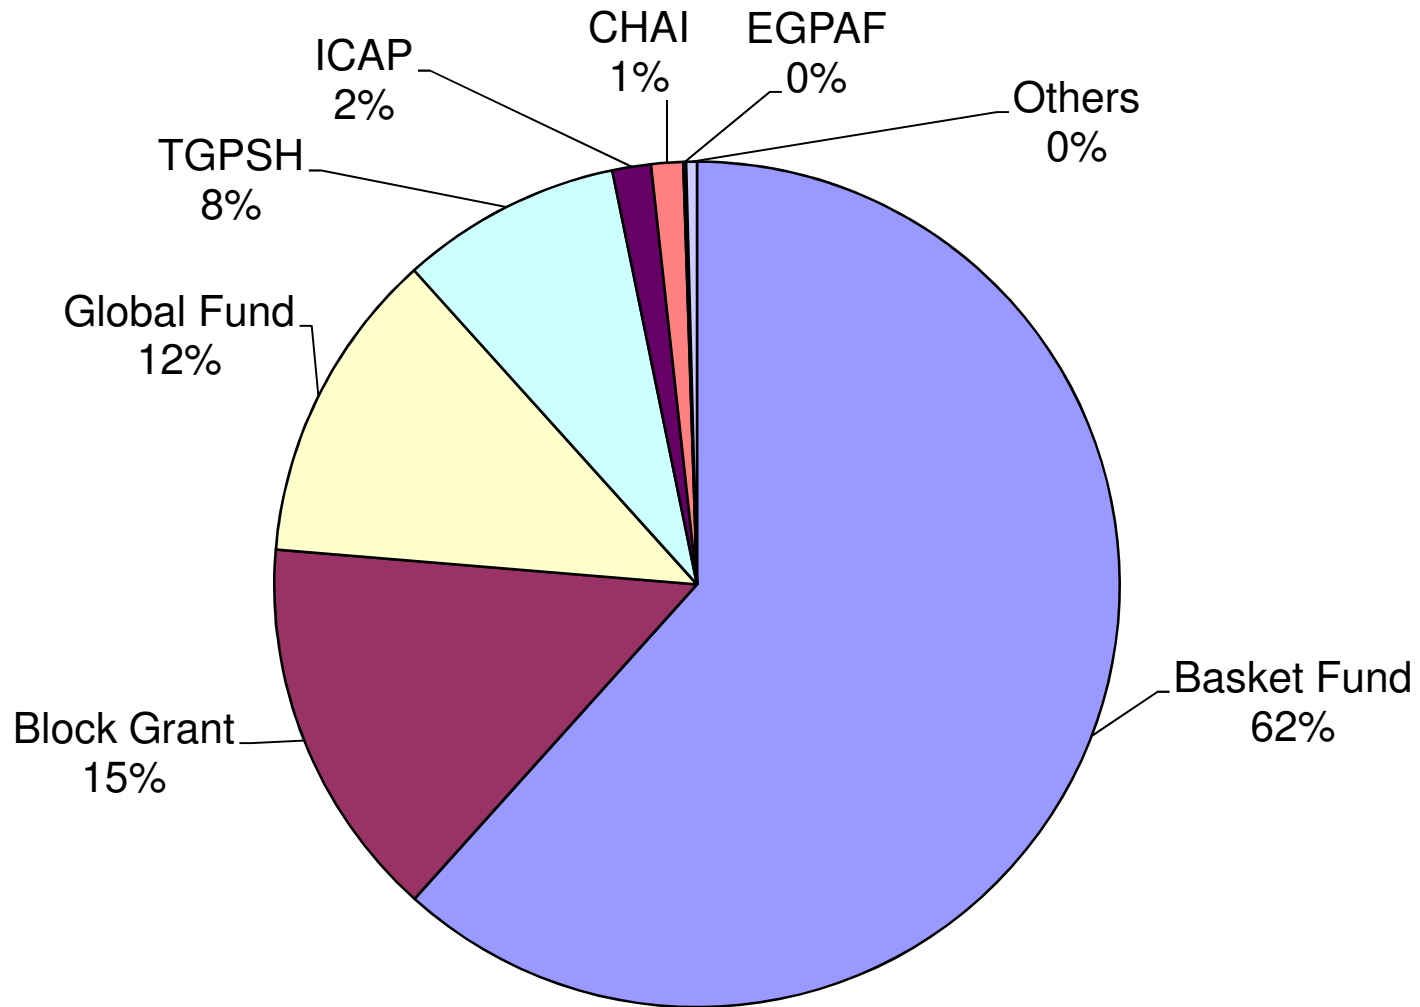

Aggregated RHMT Basket Fund Expenditure by Function

(July 2009- March 2010) 21 regions

Aggregated RHMTs Expenditure by Source June 2009-July 2010

RHMTs' progress

- Most RHMTs (95%) managed to supervise the councils at least once in each quarter.
- More funds were spent by regions on SS this function (36%)
- All councils were supported during the preparation of CCHP.
- All regions conducted PHC meetings at twice once in a year.

RHMTs' progress

(cont...)

- There has been improved quality of supportive supervision by RHMT to CHMTs
- There has been improved working tools at regional health offices.
- All RMT members were trained on Policy Dissemination in June 2010

CMSS: findings and impact on RHMT Capacity Development

- CMSS is an abbreviation for the Central Management Supportive Supervision
- Two visits on CMSS were conducted to thirteen regions in November 2009 and April-May 2010
- Visited regions were Mara, Kagera, Shinyanga, Tabora, Rukwa, Ruvuma, Lindi, Manyara, Kilimanjaro, Tanga, Coast, Lindi and Singida.

Findings from CMSS

- All planned activities were implemented at the average of 98.9 %
- Regions made assessment of quarterly implementation reports. However there were delays in receiving reports from the districts.
- As a result submission of reports from RHMT to PMO –RALG was also late.

Findings from CMSS

- Among RHMT roles and functions, networking, private sector coordination, quality assurance had a low average of implementation.
- In some regions, Regional Social Welfare Officers are not fully involved in RHMT activities
- Documentation of useful documents to some of the RHMT is weak.

Areas for improvement

- Follow up on demarcation of responsibilities between RHMT and Regional Referral Hospitals.
- Follow up on required human resource to avoid dual responsibilities among the RHMT and RRHospital Management Teams

Recommendation

- MOHSW and PMO-RALG should support the regions to take action against the CHMTs which do not submit reports at required time.
- Capacity building to RHMTs should be a continuous process.

END

Thank you for listening!
